Summary of the industry

A touch of tenderness, a helping hand, a welcoming visage, the Indian hospitality sector is certainly the most apt replication of the belief ‘Atithi devo bhava’. Good quality products and services at affordable prices should be the USP of any successful venture - and hotels in the country boast of exactly this.

According to the Indian Tourism and Hospitality Industry Analysis, India’s tourism sector is expected to grow 6.7% to reach Rs. 35 trillion (US\$ 488 billion), and accounting for 2.9% of the total economy by 2029. International tourist arrival in India is expected to reach 30.50 million by 2028. However, domestic tourism is expected to drive the growth, post the pandemic.

A focus on quality, behavior-based evaluation, market choice and market response has predominantly shaped the State's hospitality industry. Increased competition and increase in demand have consolidated the hospitality segment, whilst opening up a plethora of opportunities. Fierce competition has led to innovative ideas by hotel majors, thereby delivering impressive hospitality products and services. Also, the entry of multinationals and Indian hotel chains expanding internationally only reinforces the segment's untapped business potential.

Summary of the Business

The Company is the owner and operator of a luxury 5-star category hotel Hyatt Regency Chennai, located at 365, Anna Salai, Teynampet, Chennai – 600018 and built on an 72-ground land. SECTION – III: RISK FACTORS

An investment in securities involves a high degree of risk. Investors should carefully consider all of the information in this Information Memorandum, including the risks and uncertainties described below. If any of the following risks actually occur, the business, financial condition and results of operations could suffer, the trading price of the securities could decline, and all or part of the investment may be lost.

The risks described below are not the only ones relevant to us or the Equity Shares or the industry and regions in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair the business, results of operations and financial condition. To obtain a more detailed understanding of the Company and the industry in which we operate, please read this section in conjunction with the sections “Our Business”, “Management’s Discussion and Analysis of Financial Condition and Results of Operations” and “Industry Overview” on pages 63, 96 and 60 respectively, as well as the other financial and statistical information contained in this Information Memorandum.

INTERNAL RISK FACTORS:

1. ABILITY TO ANTICIPATE AND RESPOND TO CLIENT REQUIREMENTS

The company is in the hospitality sector and is driven by client’s expectations of the service quality. We strive to keep up with evolving client requirements to enhance the existing business and level of customer service. In the event that we are unable to identify and understand contemporary and evolving customer tastes or to deliver quality service as compared to the competitors, it could adversely affect the business.

2. COMPLY WITH VARIOUS STANDARDS AS PRESCRIBED BY THE HRACC

In order to obtain and maintain a star classification for the hotel properties, Company is required to fulfill and continually comply with certain standards as prescribed by the HRACC. Such standards may relate to the quality of facilities and services provided. Failure to adhere to such requirements may result in the declassification of any of the hotels and consequently, adversely affect the business.

3. LITIGATION RELATED RISKS

In the ordinary course of the business, Company is involved in legal proceedings including dispute, litigations or other proceedings and may face proceedings in the future which may result in costs and diversion of efforts. The Company uses ethical business practices to ensure minimum possible litigation including public interest litigation. The outcome of such proceedings is beyond the Control of the Company and this is therefore a risk factor that could adversely affect the business, operations and financial conditions. For the list of litigations involving the Company, please refer to page no 99.

4. DEPARTURE OF THE SENIOR MANAGEMENT AND KEY PERSONNEL.

The Hospitality industry requires quality of Key Managerial Personnel’s to render world class guest experience in order to sustain and compete with Hotels in the city. Hence the continuity of service by a Key Managerial Personnel plays a vital role in achieving this objective.

The company's senior management is particularly important to its business because of their experience and knowledge of the industry. The loss or non-availability of any of its senior management could have a significant adverse effect on the company.

In addition, the success in expanding the business will also depend on the ability to attract, retain and motivate appropriately qualified management personnel. The failure to successfully manage the need for personnel could adversely affect the business prospects and the resulting operations. These risks could be heightened to the extent in which we invest in businesses or geographical regions wherein we have limited experience. If we are not able to address these risks, the business, results of operations and financial condition could be adversely affected.

5. CERTAIN OPERATING HAZARDS

The Hotel Operation depends on the successful functioning and maintenance of the various machineries such as Air Conditioners, heaters and boilers in the back of the house. The hotel in general faces various challenges while operating and maintaining these equipment's.

Operating and managing hotels involves many risks that may adversely affect the operations, and the availability of insurance is therefore important to the operations. For example, there is a risk of work accidents and equipment failure. Fire or other perils may cause injury and loss of life and damage to and destruction of property and equipment. We maintain general liability insurance coverage in relation to the assets, stocks, and properties. We believe that the insurance coverage is generally consistent with industry practice.

6. DEMAND AND GROWTH

The rate of growth of India's economy and consequently the demand for services may fluctuate. During periods of strong growth, demand for services may grow. Conversely, during periods of slow GDP growth, such demand may exhibit slow or even negative growth. There can be no assurance that future fluctuations in economic or business cycles, or other events that could influence GDP growth, will not have a material adverse effect on the business and results of operations.

Due to COVID-19, a global pandemic, Travel and Tourism industry, which includes hospitality industry, has taken a frontal impact. The government's response to the situation, which includes nation wise lockdown, social distancing norms, global travel advisories, suspension of visas, prohibition against mass gatherings, cancellation of sporting and cultural events, halting of interstate transport, railways, etc. has deeply impacted the hospitality industry. The industry has witnessed sign of recovery and normalcy is expected soon.

7. FAILURE TO MAINTAIN AND/OR IMPROVE THE HOTELS OCCUPANCY AND RATE

Occupancy and rates are considered of utmost importance for the hotel's management in general, and for sales department in particular. Improving occupancy and rates at the hotel owned by the Company is highly dependent on brand recognition, liability to provide world class service, wider acceptance in the communities in which we operate, the ability to attract and retain guests, and the ability to compete effectively with other hotels.

Any failure by us to maintain and /or improve the occupancy rates could adversely affect the operating efficiencies and the profitability.

8. CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation.

Details of Contingent Liabilities are mentioned in page number 10

9. ABILITY TO BUILD BRAND IMAGE

Company believes that there is a need to continue to build the brand, which will be critical for achieving widespread recognition of services. Promoting and positioning the brand will depend largely on the success of marketing efforts and ability to provide high quality services. The Brand promotion activities we may undertake may not yield increased revenues, and even if they do, any increase revenue may not offset the expenses we incur in building the brand.

10. RELATED PARTY TRANSACTIONS

We may enter into transactions with the Promoter, Promoter Group, parties having significant influence and associate companies. We cannot assure you that such transactions, individually or in the aggregate, will not have an adverse effect on the financial condition and results of operations. While we believe that all such transactions will be conducted on an arm's length basis, such related party transactions may potentially involve conflicts of interest and we may obtain more favourable terms if such transactions are entered into with unrelated parties. Further, we cannot assure you that such transactions, individually or in the aggregate, will always be in the best interests of the minority shareholders and will not have an adverse effect on the business, result of operations, cash flows and financial condition. The details of the related party transactions are given in page no 10

11. RISKS ASSOCIATED WITH PROPERTY MARKETS

We are subject to risks associated with the domestic and regional property markets. The operations involve participation in the hotel property market. As a participant in such market, we may be unfavourably affected by factors such as a change in the domestic and regional economic situation in the place where a hotel property is located, such as a surplus of hotel rooms, a reduction in local demand for rooms as well as the related services, or increased competition in the sector. In addition, we may be adversely affected by factors specific to property markets, such as changes in interest rates, availability of financing sources, the general cost of land and buildings, legislation in the construction industry and hotel location requirements.

Some of the Promoters and Directors are also on the board of other companies engaged in the same line of business as the Company which could lead to potential conflict of interest. However, we are working towards synergizing the operations of the Companies to avoid such conflicts in the future.

EXTERNAL RISK FACTORS:

1. SLOWDOWN IN ECONOMIC GROWTH

A slowdown in economic growth in India could cause the business to suffer. Any slowdown in the Indian economy and the consequent impact on disposable income could adversely affect the Company's economy and consequently affect the results of operations.

2. REGULATORY OBLIGATIONS

The Company may require approvals, licenses, registrations and permits for its business(s). Any delay in getting these approvals may adversely affect the business operations and financial condition of the Company. Furthermore, such approvals and licenses are generally subject to various conditions. If the Company fails to comply, or an authority contends that the Company has not complied with these conditions, its business, financial position and operations would be materially adversely affected.

3. INCREASED COMPETITION

The success of a company in the hospitality industry is dependent on its ability to compete in various areas, quality of service levels, brand recognition and goodwill. There can be no assurance that competitors will not lower their rates or offer greater convenience, services or amenities than those which we will be able to provide, or expand or improve facilities in the markets in which we operate or propose to operate. Such developments would affect the Company's ability to compete and may have a negative impact on its profitability and financial condition.

4. DISRUPTIONS OR LACK OF BASIC INFRASTRUCTURE

Being a Service industry, the hotel needs continuous supply of power and water and any disruption in these utilities may affect the operations of the hotel and the services to the guests and hence could have an adverse effect on the business, results of operations and financial condition of the Company.

5. DEPENDENCE ON TAX BENEFITS AND INCENTIVES

Discontinuance or non-availability of fiscal benefits that may be enjoyed by us or the inability to comply with related requirements may have an adverse effect on the business and results of operations.

6. ACTS OF TERRORISM, RIOTS OR WAR

Terrorist attacks, communal disturbances, civil unrest and other acts of violence or war involving India and or other countries may adversely affect the financial markets and the business. Such occurrences affect the Indian markets on which the Equity Shares trade and also adversely affect the worldwide financial markets. These incidents may also lead to loss of business confidence, and adversely affect the business.

In addition, any deterioration in relations between India and its neighboring countries might result in investor concern about stability in the region, which may adversely affect the price of the Equity Shares. India has also witnessed civil unrest including communal disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic and political events may have a negative impact on us. Such incidents may also create a perception that investment in Indian companies involves a higher degree of risk and may have a detrimental impact on the business and the price of the Equity Shares.

7. DRASTIC CHANGES IN POLITICAL SITUATION

The Company's performance is linked to the stability of Government policies and the political situation in India. The Government of Tamil Nadu and India, for more than two decades has relentlessly pursued pro-reform policies, thus encouraging privatization and public-private partnerships.

Protests and anti-reform agitations could slow the pace of liberalization and deregulation. This could have an impact on policies related to hospitality industry, foreign investment, currency exchange rates, etc.

8. NATURAL CALAMITIES

The occurrence of natural disasters, including hurricanes, floods, earthquakes, tornadoes, fires, explosions, pandemic diseases and man-made disasters, including acts of terrorism and military actions, may adversely affect the financial condition or results of operations.

We cannot assure prospective investors that such events will not occur in the future or that the business, results of operations and financial condition will not be adversely affected.

9. VOLATILITY IN THE PRICE OF THE EQUITY SHARES

The price of Equity Shares on the stock exchange may fluctuate as a result of several factors, including volatility in the Indian and global securities markets, the operations and performance, performance of the competitors and the perception in the market about investments in negative media reports on us or the Indian industry, changes in estimates of the performance or recommendations by financial analysts, significant developments in India's economic liberalization and deregulation policies; and significant developments in India's fiscal and environmental regulations. There can be no assurance that the prices at which the Equity Shares are initially traded will correspond to the prices at which the Equity Shares will trade in the market in the future.

10. PAYMENT OF DIVIDEND

The payment of dividend will depend upon number of factors, including but not limited to the earnings, capital requirements, contractual obligations, applicable legal restrictions and overall financial position. We may decide to retain all of the earnings to finance the development and expansion of the business and therefore, we may choose not to declare dividends on the Equity Shares.

1. OVERVIEW, OBJECTS AND BENEFITS OF THE SCHEME

OVERVIEW OF THE SCHEME OF ARRANGEMENT

This Scheme contemplates *inter alia* the demerger and transfer of the Demerged Undertaking from AHEL into and with RHPL as a going concern, in accordance with Sections 230-232 of the 2013 Act and in compliance with Section 2(19AA) of IT Act, and reduction and cancellation of equity shares of RHPL held by AHEL (without payment of consideration), in terms of Section 66 of the 2013 Act and used for *inter alia* wiping out its losses. In addition, as an integral part of the Scheme, AHEL shall make a bonus issue in accordance with Sections 63 of the 2013 Act of fully paid-up equity shares to its equity shareholders (as of the Record Date) in 1:2 ratio, that is, 1 (one) new bonus fully paid-up equity share having face value of Rs. 10 (Indian Rupees ten) for every 2 (two) Equity Shares of the AHEL having face value of Rs. 10 (Indian Rupees ten) each held by a shareholder of AHEL as of the Record Date.

After the effectiveness of this Scheme, the Share Capital of RHPL consisting of the fully paid-up New Equity Shares of RHPL issued as consideration in terms of Part IV of this Scheme to the shareholders of AHEL shall be listed on the Stock Exchanges in accordance with the provisions of SEBI Circular No. CFD/DIL3/CIR/2017/21, dated March 10, 2017, as amended from time to time. Further, as an integral part of the Scheme, Equity Shares of RHPL (presently held by AHEL) shall stand cancelled and reduced (without payment of consideration) without any further act and deed, and hence this Scheme contemplates approval of the Tribunal(s) in terms of Section 66 of the 2013 Act, in addition to Sections 230-232 of the 2013 Act.

OBJECTS AND RATIONALE OF THIS SCHEME

AHEL primarily operates in two business segments through separate business divisions: (i) its Hotel Division is engaged in the operation and management of the Hyatt Regency, Kolkata; and (ii) its Investment Division comprising of: (a) Strategic Investments Unit, b) Securities Trading Unit.

Each of the businesses carried on by AHEL by itself and along with its subsidiaries have significant potential for growth and profitability, however, the nature of risk, competition, challenges, opportunities and business methods for AHEL and RHPL are very different. The proposed demerger would result in segregation and transfer of the Securities Trading Unit into RHPL / Resulting Company and continued housing of the Hotel Division in AHEL/ Demerged Company.

BENEFITS OF THE SCHEME:

- (i) Unlocking the value of AHEL shares to its shareholders, which is presently getting subdued on account of subdued performance and balance sheet of RHPL;
- (ii) Possible release of guarantee(s) presently given by AHEL to the lenders of RHPL. This would clear the contingent liability as appearing in the financial statements of AHEL, and will potentially improve the credit rating of AHEL, thereby enabling reduction in cost of finance for AHEL and better price discovery on the stock market;
- (iii) Pursuant to the Scheme, the Equity Shares of RHPL shall also be entitled to the benefit of getting listed on the Stock Exchanges pursuant to the SEBI Circular. Therefore, shareholders of AHEL (as of the Record Date) shall, as a result of the Scheme, hold Equity Shares of 2 (two) listed entities, AHEL and RHPL. Such shareholders would then be able to choose to remain invested in both or either of AHEL and RHPL, giving them greater flexibility in managing / dealing with their investments in different companies, being AHEL and RHPL in view of their respective businesses, and individual risk profiles;
- (iv) Improving the balance sheet of RHPL and its credit rating by providing liquid assets and resources that would enable enhancement in future profitability without any sacrifice of value by the shareholders of AHEL, enabling potential turn-around and/or expansion programs for RHPL, and assist RHPL in supporting and potentially reducing its debt burden and cost of borrowing;
- (v) Enable unlocking of the true value of the RHPL for the shareholders of AHEL (in a separate entity, being RHPL), which does not appear to be reflecting fully and accurately in the present consolidated market valuation of AHEL on account of there being a holding company discount;
- (vi) Provide scope for attracting and accessing targeted funding and investors for each of AHEL and RHPL and provide better flexibility in pursuing long term growth plans and strategies for the separate companies AHEL and RHPL, instead of RHPL continuing to use AHEL's credit rating and guarantees and equity funds;
- (vii) Enable the management of AHEL to evaluate the performance of the Hotel Division on an independent basis and keep its risks (if any) ring-fenced; and

Mehta, a Registered Valuer (as defined in the Companies (Registered Valuers and Valuation) Rules, 2017), to provide a Capital Allocation Report / Share Entitlement Report. In connection with such engagement, Mr. Mahim S. Mehta has issued a Capital Allocation Report / Share Entitlement Report dated January 13, 2020. AHEL and RHPL had engaged D&A Financial Services (P) Limited, Merchant Bankers, to provide a fairness opinion on Share Entitlement Ratio adopted under this Scheme. In connection with such engagement, D&A Financial Services (P) Limited, Merchant Banker has issued a fairness opinion dated January 13, 2020 (“Fairness Opinion”). The Board of Directors of each of AHEL and RHPL have determined the Share Entitlement Ratio as 1:1, based on their independent judgment and after taking into consideration the aforesaid Capital Allocation Report / Share Entitlement Report and Fairness Opinion (“Share Entitlement Ratio”). Therefore, 1 (one) Equity Share of RHPL having a face value of Rs. 10 (Indian rupees ten) each shall be issued and allotted to shareholders of AHEL for every 1 (one) Equity Share of AHEL having a face value of Rs. 10 (Indian rupees ten) each, held by shareholders of AHEL as of the Record Date.

The Board of Directors of AHEL and RHPL shall be empowered to remove such difficulties as may arise in the course of implementation of this Scheme and registration of new members in RHPL on account of difficulties faced in the transition period.

The New Equity Shares to be issued and allotted by RHPL in terms of Clause 4.2 shall be subject to the provisions of the Memorandum of Association and Articles of Association of RHPL, and shall rank *pari passu* with the Equity Shares of RHPL.

The issuance and allotment of Equity Shares by RHPL to the shareholders of AHEL in terms of Part IV of this Scheme is an integral part of the Scheme and shall be deemed to have been carried out as if the procedure laid down under Section 62 and other applicable provisions of the 2013 Act, as well as all applicable SEBI regulations have been complied with.

The information presented in this section has been extracted from industry reports and publicly available documents from various sources, including officially prepared materials from the Government of India and its various ministries. Neither we, nor any other person connected with the listing of Equity Shares has independently verified this information. Industry publications are also prepared based on information as of specific dates and may no longer be current or reflect current trends. Such industry publications contain information in summary form and are therefore intended for general guidance only. You should read the following summary together with the “Risk Factors” on page 12. and the more detailed information about us and our financial results included elsewhere in this Information Memorandum.

INDIAN ECONOMY OVERVIEW

India has emerged as the fastest growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships. The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20, according to the provisional estimates of GDP released on May 31, 2022. Real GDP growth in FY 2021-22 stands at 8.7%, which is 1.5% higher than the real GDP in FY 2019-20. These figures are associated with stronger growth momentum, indicating increased economic demand. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters.

India is expected to be the third largest consumer economy as its consumption may triple to US\$ 4 trillion by 2025, owing to shift in consumer behavior and expenditure pattern, according to a Boston Consulting Group (BCG) report. It is estimated to surpass USA to become the second largest economy in terms of purchasing power parity (PPP) by 2040 as per a report by PricewaterhouseCoopers.

India has been one of the best performers in the world economy in recent years, but rapidly rising Inflation and the complexities of running the world’s biggest democracy are proving challenging.

IMPACT OF COVID – 19

The Slowdown seen in India’s GDP growth to a four-quarter low of 4.1 percent in January – March period of 2021-22 was mainly on account of impact of third Covid wave and high commodity prices, opined experts.

Indian economy grew at its slowest pace in a year during January – March, pulling down the gross domestic product growth in the full year to March to 8.7 percent before Russia’s invasion of Ukraine added a new inflation hurdle to the recovery.

The GDP expanded to 4.1 percent in the final quarter of the 2021-22 fiscal year, according to data released by the National Statistical office.

Provisional estimates of the real GDP in financial year 2021-22 exceeds the pre-pandemic 2019-20 level to now establish full economic recovery – said Chief Economic Advisor – Anantha Nageswaran.

The Service sector was the main driver of 3.9 percent GVA growth in the fourth quarter of FY 2022: said Aditi Nayar, chief Economist, ICRA.

Momentum in the service sector will be one of the key drivers apart from the government's focus on enhancing public capital expenditure.

India's GDP grew by 8.7 percent in 2021-22, staging a major comeback after a declaration of 6.6 percent in the previous fiscal, this clearly indicate that the economy is out of the woods from the effects of the pandemic and is on its path to recovery.

Government's Chief Economic Advisor ruled out the risk of stagflation in India as the Country is better placed than other countries.

INDIAN HOSPITALITY INDUSTRY

The hospitality sector in India primarily thrives on tourism, which is an important source of foreign exchange and employment. The government has taken several initiatives which play a major role in the growth of the hotel industry.

India is a large market for travel and tourism. It offers a diverse portfolio of niche tourism products - cruises, adventure, medical, wellness, sports, MICE, eco-tourism, film, rural and religious tourism. India has been recognized as a destination for spiritual tourism for domestic and international tourists.

The Indian tourism and hospitality industry have emerged as one of the key drivers of growth among the services sector in India. Tourism in India has significant potential considering the rich cultural and historical heritage, variety in ecology, terrains and places of natural beauty spread across the country. Tourism is an important source of foreign exchange in India similar to many other countries. The foreign exchange earnings from 2016 to 2019 grew at a CAGR of 7% but dipped in 2020 due to the COVID-19 pandemic.

Market Insight

The hotel industry in India is a part of the travel and tourism industry. Business travellers are gradually increasing in number due to the rapid growth of the IT sector and the emergence of several global companies. Travel and lodging traditionally form a significant portion of the discretionary expenses of individuals. GenX and millennials across the globe are showing an increasing fondness for travelling to unexplored and drivable destinations. There is a rising trend of destination events like weddings and anniversary celebrations. The reflection of these trends is evident in the contribution of the Tourism and Hospitality industry to the national GDP.

According to World Travel and Tourism Council, the contribution of Tourism and Hospitality to the national GDP has increased significantly. The key performance indicators (KPIs) used by the industry to measure business expansion and manage hotels are average room rate (ARR) and revenue per available room (RevPAR). The ARR stood at INR 5,458.68 in FY 2020 as against INR 5,671.00 in FY 2017. It is expected to reach INR 6,292.85 by FY 2025 while expanding at a compound annual growth rate (CAGR) of ~2.49% between FY 2021 and FY 2025.

In FY 2020, the RevPAR was ~INR 1,951.34 and is expected to reach INR 3,336.28 by FY 2025. It is expected that the hotel industry will expand at a promising rate since India will be hosting the ICC Men's World Cup in 2023. It has been assumed that this event would increase foreign tourists' footfall in the country.

Government Initiatives

The Indian Government has realised the country's potential in the tourism industry and has taken several steps to make India a global tourism hub. Some of the major initiatives planned by the Government of India to boost the tourism and hospitality sector of India are as follows:

- **In the Union Budget 2022-23:**

- Rs. 2,400 crore (US\$ 309.13 million) has been allocated to the Ministry of Tourism which is 18.42 % higher than the allocation for FY 2021-22.
- Rs. 1,181.30 crore (US\$ 152.16 million) is allocated for the Swadesh Darshan Scheme.
- Rs. 235 crore (US\$ 30.27 million) for the Pilgrimage Rejuvenation and Spiritual and Heritage Augmentation Drive (PRASHAD) Scheme.
- The Ministry of Tourism has launched the National Strategy for Sustainable Tourism and Responsible Traveller Campaign in June 2022.
- From November 15, 2021, India allowed fully vaccinated foreign tourists to visit India, which in turn will help revive the Indian travel and hospitality sector.

- In November 2021, the Indian government planned a conference to boost film tourism in the country with an aim to establish domestic spots as preferred filming destinations. This move is expected to create jobs and boost tourism in the country.
- In September 2021, the government launched NIDHI 2.0 (National Integrated Database of Hospitality Industry) scheme which will maintain a database of hospitality sector components such as accommodation units, travel agents, tour operators, & others. NIDHI 2.0 will facilitate the digitalization of the tourism sector by encouraging all hotels to register themselves on the platform.
- Government is planning to boost the tourism in India by leveraging on the lighthouses in the country. 71 lighthouses have been identified for development as tourist spots.
- The Ministry of Road Transport and Highways has introduced a new scheme called 'All India Tourist Vehicles Authorisation and Permit Rules, 2021', in which a tourist vehicle operator can register online for All India Tourist Authorisation/Permit. This permit will be issued within 30 days of submitting the application.
- The Indian Railway Catering and Tourism Corporation (IRCTC) runs a series of Bharat Darshan tourist trains aimed at taking people to various pilgrimages across the country.

Contribution to the economy

According to WTTC, India is ranked 10th among 185 countries in terms of travel & tourism's total contribution to GDP in 2019. During 2019, contribution of travel & tourism to GDP was 6.8% of the total economy, ~ Rs. 1,368,100 crore (US\$ 194.30 billion). In 2020, the Indian tourism sector accounted for 39 million jobs, which was 8% of the total employment in the country. The basic purpose of these statutes is to control, abate and prevent pollution. In order to achieve these objectives, Pollution Control Boards, or PCBs, which are vested with diverse powers to deal with water and air pollution, have been set up in each state. The PCBs are responsible for setting the standards for maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking investigations to ensure that industries are functioning in compliance with the standards prescribed. These authorities also have the power of search, seizure and investigation if the authorities are aware of or suspect pollution.

All industries and factories are required to obtain consent orders from the PCBs, which are indicative of the fact that the factory or industry in question is functioning in compliance with the pollution control norms laid down. These are required to be renewed annually.

The issue of management, storage and disposal of hazardous waste is regulated by the Hazardous Waste Management Rules, 1989 made under the Environment Protection Act. Under these rules, the PCBs are empowered to grant authorization for collection, treatment, storage and disposal of hazardous waste, either to the occupier or the operator of the facility.

In addition, the Ministry of Environment and Forests looks into Environment Impact Assessment (EIA). The Ministry receives proposals for expansion, modernization and setting up of projects and the impact which such projects would have on the environment is assessed by the Ministry before granting clearances for the proposed projects.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

1. OVERVIEW

The Company was originally incorporated as Robust Hotels Private Limited on January 19, 2007, under the Companies Act, 1956, with the Registrar of Companies, Tamil Nadu, Chennai. The Corporate Identification Number/Registration Number assigned to the Company was U55101TN2007PTC062085. The Company entered into a Scheme of Arrangement, Demerger and Reduction of Capital with M/s Asian Hotels (East) Limited (AHEL/Transferor Company) and its shareholders and creditors which became effective on 21.09.2022. On the Scheme becoming effective, the Securities Trading Unit (Demerged Undertaking) of the transferor company was demerged and vested into and with the Company as a going concern. Subsequently the Company was converted into a public limited company and the name of the Company was changed to Robust Hotels Limited with effect from 11.10.2022. The new CIN: U55101TN2007PLC062085.

2. FACTORS AFFECTING THE COMPANY'S RESULTS OF OPERATIONS

In the current economic scenario, with travel restrictions slowly getting relaxed across the country as well as in most parts of the world, there is a big challenge in the near term for the tourism and hospitality industry. Being a high fixed cost business, the focus is to reduce the fixed costs and transform the operating model into a leaner and more flexible model. FY20 saw a small dip vs FY19 due to the initial impact of COVID-19. FY21 was one of the worst-performing years on record for the industry as India occupancy and ADR's crashed to 33.8% (50% below FY20) and ₹ 4013 (33% below FY20) respectively. However, the traditional domestic demand is expected to start showing gradual signs of improvement, as soon as the travel restrictions are relaxed across the country. Currently, mass vaccination has been done across many countries, and hence the demand for hotel rooms has bounce back to normal levels globally after a significant proportion of the world population is vaccinated.

The Company's results of operations are primarily affected by room revenue and food and beverage revenue in its hotels. Room revenue is dependent upon the number of hotel rooms occupied by guests and the rate at which such guests can be charged. Food and beverages revenue is dependent upon number of hotel rooms occupied, number of non-resident guests visiting the hotel, utilization of banquet space and rate at which the guests can be charged. The occupancy rates reflect, as a percentage of overall rooms available, the rooms occupied by guests. Average Room Rate ("ARR") reflects the average rate charged to guests for the rooms occupied by such guests over a given period.

The Company's revenue consists of operating revenue from its hotel activities, and other income.

The Company's results of operations are subject to seasonal fluctuations during the financial year.
